

# PHANTOM POWER HOME ACTIVITY

Investigate where phantom energy is being used in your home!

## Instructions

Walk around your household and look for everyday electric appliances and see if they are plugged in and still using energy. You know they are using energy when they have a light, clock, are programmable or feel warm to touch.

<b>Electric Appliance</b>	<b>Is it currently in use?</b>	<b>Is its plugged in?</b>	<b>How long has it been left like this?</b>	<b>Did you let an adult know?</b>
Televisions				
Computer or Laptop				
Coffee Maker				
Toaster (small light)
